SUMMARY

Backend-focused Full Stack Developer with 1.5+ years of professional and internship experience building scalable **Node.js/NestJS** microservices, REST APIs, and cloud-native workflows on **AWS**. Hands-on with event-driven systems using RabbitMQ and Redis, real-time WebSocket applications, payment integrations, and **AI-powered features** with LangChain, RAG, and Gemini. B.Tech in Computer Science; 200+ problems solved on LeetCode.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, SQL

Backend: Node.js, NestJS, Express.js, REST APIs, Microservices, JWT Authentication, WebSocket, Socket.IO, RabbitMQ, Redis

Frontend: React.js, Next.js, Tailwind CSS

Databases: MongoDB, PostgreSQL, MySQL

Cloud & DevOps: AWS EC2, S3, Lambda, MediaLive, MediaPackage, IAM, Secrets Manager, SES, Docker, Docker Compose, Git, GitHub

AI Integration: LangChain, RAG, AI Agents, Google Gemini API, Claude API, OpenAI API, Vapi, Telnyx, OpenCV, YOLO

EXPERIENCE

Full Stack Developer — MicrocosmWorks

Mar 2026 – Present

Delhi, India

- Developed scalable backend services for an **enterprise media streaming platform** using Node.js, NestJS, TypeScript, Redis, Docker, and AWS MediaLive, MediaPackage, EC2, S3, Lambda, and Secrets Manager.
- Built **cloud-native live-streaming workflows**, REST APIs, and production-ready backend modules focused on scalability, workflow automation, and secure authentication.
- Developed backend services for an **AI-powered video editing platform**, integrating OpenCV and YOLO for intelligent video reframing, object detection, and object tracking.

Full Stack Developer Intern — Expertify

Jun 2025 – Nov 2025

Delhi, India

- Developed **Expertify**, a full-stack home services platform with service listings, booking flow, vendor assignment, and **real-time** booking status updates using WebSocket.
- Integrated **Razorpay and PayPal** payment gateways with secure webhook handling and robust error handling for payment transactions.
- Designed secure REST APIs, user dashboards, and an **AI-powered support chatbot** on a scalable Node.js/Express backend.

Full Stack Developer Intern — Cyberyaan Training and Consultancy

Jun 2024 – Aug 2024

Delhi, India

- Developed a tech community platform enabling users to post, share resources, and engage in real time using React.js, Node.js, and MongoDB.
- Implemented **real-time notifications** using WebSocket, supporting **400+ concurrent users**.
- Designed a **scalable MongoDB schema** that improved read/write efficiency for community posts and feeds.

PROJECTS

Cortex AI – Agentic AI Chatbot Platform

GitHub

React.js, Node.js, Express.js, MongoDB, Socket.IO, LangChain, Gemini API, Docker

- Built a scalable **AI chatbot platform** with real-time conversations over Socket.IO, JWT authentication, and persistent chat history in MongoDB.
- Implemented **RAG** with a LangChain agent and live web-search tool to ground responses in up-to-date external knowledge.
- Used **LangChain** for conversation memory and prompt orchestration; added tool-calling for automated emails from chat.
- Containerized the application with **Docker Compose** for consistent local and production environments.

AI-Interviewer – AI Mock Interview Platform

GitHub

React.js, Express.js, MongoDB, Google Gemini API, JWT

- Developed an **AI-driven interview platform** for resume evaluation, coding preparation, and performance analytics.
- Integrated **Google Gemini AI** via secure REST APIs to generate coding questions, explanations, and personalized interview feedback.
- Implemented **JWT authentication** and session management for secure access to interview history and analytics.

EDUCATION

Bachelor of Technology, Computer Science and Engineering — GNA University, Punjab

Aug 2022 – Aug 2026

CGPA: 7.7 / 10
